THE MINNESOTA SAFE ROUTES TO SCHOOL NETWORK...

<p>...is approximately 220 dedicated professionals from organizations and agencies that are advancing Safe Routes to School (SRTS) in Minnesota...</p>	<p>...that builds skills in Minnesota communities to successfully implement SRTS, supporting partnerships between state and local agencies, municipalities, and advocacy organizations, and advocating for policy changes to support walking and bicycling to schools and improvements to the built environment...</p>	
	<p>...and makes Minnesota a state where all students, no matter their race, ethnicity, income level, age, ability, or geographic location, can walk and bicycle on routes that are safe, comfortable and convenient...</p>	<p>...because to be able to walk and bike safely makes health, learning, communities, and independence better for all of us.</p>
